Lab 04 - Page 1: BBOX_CROP Artifact

Form XObject BBox: [0 0 200 150] Image display size: 400x300 pts

The right half and top half of the image are cropped by the BBox.

The hidden portion contains: ORIGINAL RECEIPT DATA

The image above shows only 200x150 pts of a 400x300 pt image.

Object numbers: Form XObject=see xref Image=see xref

Lab 04 - Page 2: OVERLAP Artifact

Image C [HIDDEN DOCUMENT - red] drawn first, then covered by Image B [blue].

Image C coords: x=100 y=380 w=200 h=150 pts [BACK - concealed]

Image B coords: x=50 y=340 w=300 h=200 pts [FRONT - concealing]

The viewer sees only the blue image. The red HIDDEN DOCUMENT is beneath it.

Lab 04 - Page 3: OFFPAGE Artifact

Image D is placed with x=-80 pts, extending 80 pts beyond the left page edge.

The portion at x=-80 to x=0 is invisible in any PDF viewer.

MediaBox: [0 0 612 792] Image placed at: [-80 400 220 600]

^--- The visible portion starts at x=0. Content from x=-80 to x=0 is hidden.

Lab 04 - Page 4: DPI_ANOMALY Artifact

This page contains two images with very different effective DPI values.

Image F: 600x400 pixels displayed at 144x96 pts = 300 DPI [scanned]

Image E: 150x100 pixels displayed at 150x100 pts = 72 DPI [screenshot]

A legitimate all-scanned document should have uniform DPI across all pages.

Image F: 600x400px at 144x96pts = 300 DPI

Image E: 150x100px at 150x100pts = 72 DPI <-- ANOMALY
